Derek MacWilkinson

Derek has written to us:

I write to you as an ex.ARA employee,circa 1960-1966.I was a Project Supervisor working with Barry Haines, Chief Aerodynamicist and Ron Hills Chief Executive through the 1960`s on several projects including VC 10 ,Bac111. I subsequently settled in the USA with Lockheed Georgia,McDonnell Douglas and Boeing. I was always appreciative of the great influence Barry Haines had on my knowledge of aerodynamics during my career in the States. Having been retired for the last sixteen years I was wondering if you could research any of my colleagues during that period to resume contact.

If friends of Derek could contact me please, I will share his email address with you.
